

Git Tips

2024

Ref Video^[1]

1. 配置 tracked files 配置

git config --global alias.stash 'stash --all'

2. Conditional Configs

```
// root/.gitconfig
// 配置 git config
// 配置 current config = root configs + specific config
[include "gitdir:~/t/"]
path= ~/t/.gitconfig
```

3. no git blame -L, just log -L

```
git blame -L <start>,<end> path/to/file
git log -L <start>,<end>:path/to/file
git log -L:<func_name>:path/to/file
```

4. diff word-by-word

git diff --word-diff path/to/file

5. rerere^[2] [2] " role="complementary" aria-hidden="true">#

```
"reuse recorded resolution" Git
Git
```

6. signing commit with ssh

user.name/user.email
pub.key code repo server

```
git config git.format ssh
git config user.signingkey ~/.ssh/pub.key
```
